

PAY4SUB

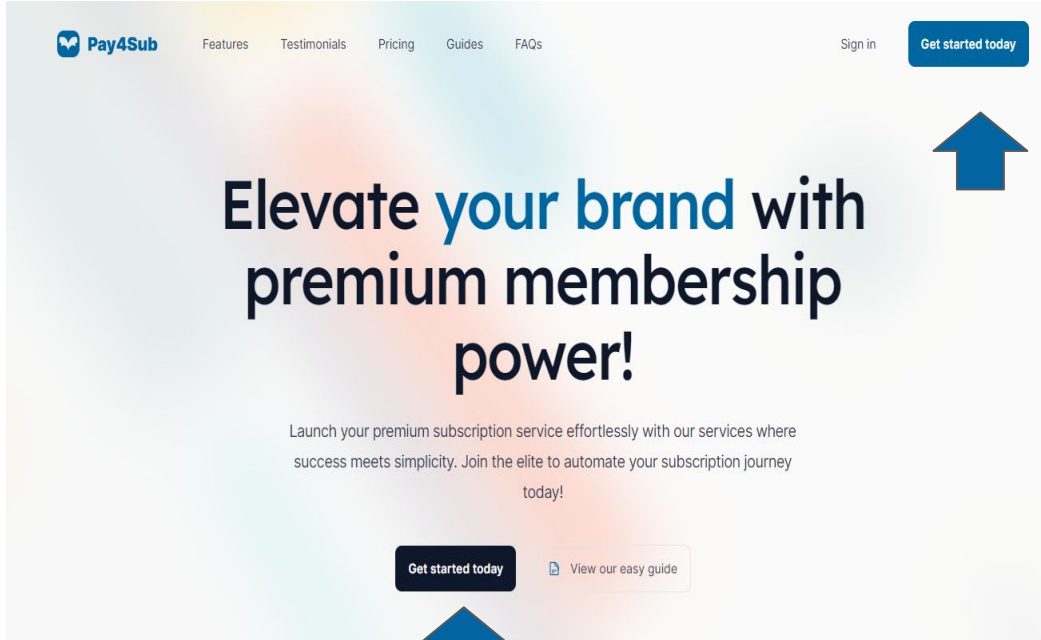

USER GUIDE

Setting up made easy

STEP 1:

Open pay4sub.com or payforsub.com in your browser or search engine

STEP 2:

Click on the "Get Started" icon to sign up

Get started with us today

Already have an account? [Sign in](#) to your account.

Brand name

Brand Email address

Brand telegram support handle

What does your brand do?

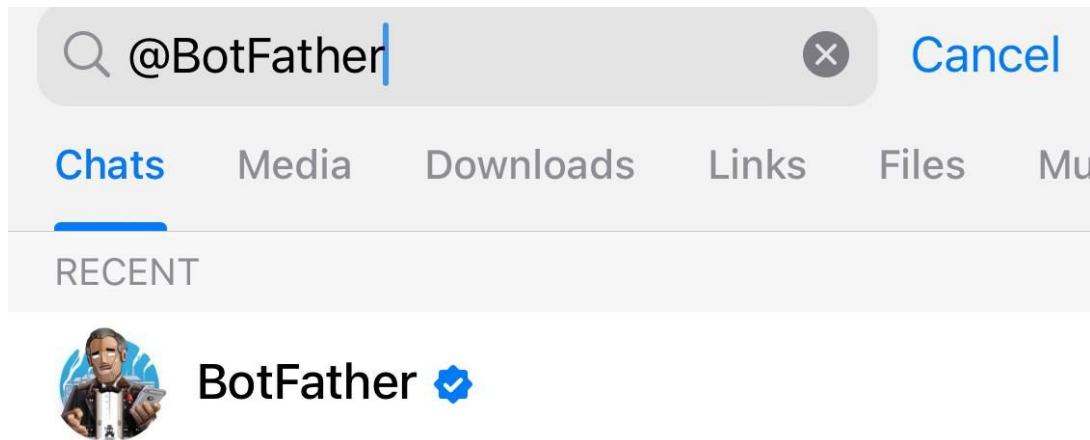

When signing up you would provide a brand name, brand email address, brand telegram support handle, give a description of what your brand does, your industry, country and create a password.

Create a Telegram support handle for your brand so your subscribers can reach out to you if they have issues. Eg. @Pay4SubSupport

STEP 3:

After creating the account, open your Telegram App, search @BotFather and select it

Menu

Create a new bot

/newbot

Edit your bots

/mybots

Edit your web apps

/myapps

Edit your games

/mygames

Generate authorization

X Menu

Message

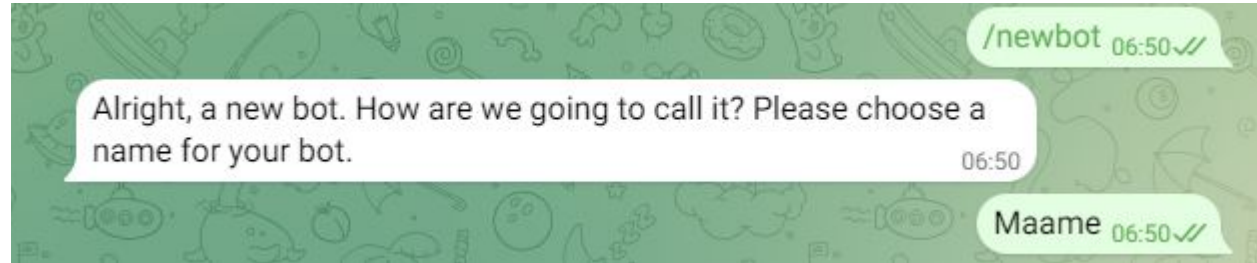

STEP 4:

Click on the hamburger icon at the bottom left as indicated above, a drop down option will be displayed for the user. Select create a new bot (/newbot)

STEP 5:

You would be asked to choose a name for your bot eg. Maame

A screenshot of a Telegram chat conversation on a green background with various icons. The chat shows three messages: a white bubble from the left with instructions, a green bubble from the right with the name 'Comrade', and another green bubble from the right with the name 'Comrade1990_bot'.

Good. Now let's choose a username for your bot. It must end in `bot`. Like this, for example: TetrisBot or tetris_bot.

Comrade 07:09 ✓✓

07:09

Comrade1990_bot 07:09 ✓✓

STEP 6:

After choosing a name, you would have to choose a username for your bot.

Note: It must end in bot. Eg. COLREXBot or COLREX_Bot

STEP 7:

After choosing a username as stated above, a token to would be provided as seen highlighted. Copy the token code

Done! Congratulations on your new bot. You will find it at t.me/COLREXBot. You can now add a description, about section and profile picture for your bot, see [/help](#) for a list of commands. By the way, when you've finished creating your cool bot, ping our Bot Support if you want a better username for it. Just make sure the bot is fully operational before you do this.

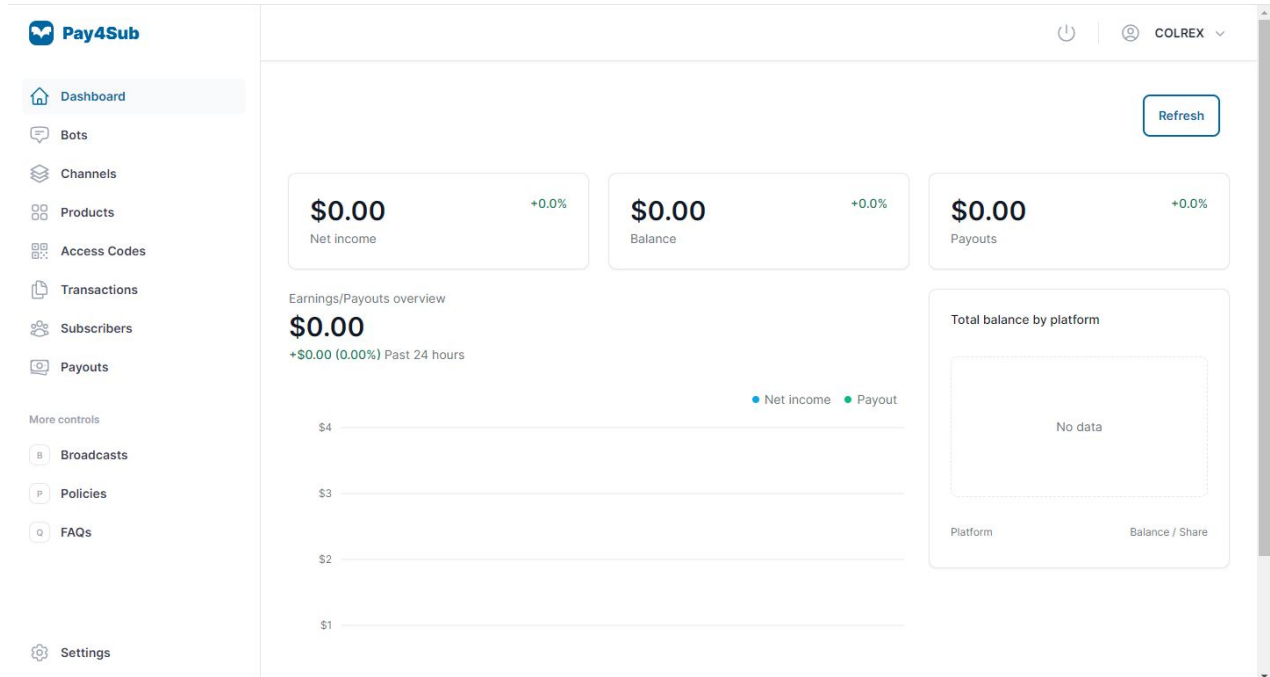

Use this token to access the HTTP API:

```
7100262192:AAGpxnW31-  
n0abDE7ZnYyjAKLaoFPid8LwI
```

Keep your token **secure** and **store it safely**, it can be used by anyone to control your bot.

For a description of the Bot API, see this page: <https://core.telegram.org/bots/api>

Login to pay4sub.com or payforsub.com by inputting your brand email and the password you created. Upon successful login two messages would pop up indicating a successful login.

STEP 15:

After linking the channel come back to pay4sub.com or payforsub.com and click start to enable the channel run seamlessly

STEP 16:

After linking the channel, go back to your Pay4Sub account to start the channel and also create the product and run the product

The screenshot shows the Pay4Sub web application interface. The browser address bar displays "pay4sub.com/products". The left sidebar contains a navigation menu with the following items: Dashboard, Bots, Channels, Products (highlighted), Access Codes, Transactions, Subscribers, Payouts, More controls, Broadcasts, Policies, and FAQs. The main content area is titled "Products" and includes the text "List of all the products in your account including their name, amount, duration and associated channel." Below this text is a light blue message box that says "No products at the moment". To the right of the message box are two buttons: "Refresh" and "Add product". A blue arrow points to the "Add product" button. At the bottom of the page, there is a copyright notice: "Copyright © 2024 Pay4Sub. All rights reserved. Made with ❤️ by Abdul Shakur Abbas Sakhr".
